

AI SYLLABI EXAMPLES

AI Use	Language
Outright Prohibition	"The use of AI tools such as ChatGPT, or any other generative AI technologies, is strictly prohibited in this course. All assignments must be completed without any AI assistance. Violations will be considered academic dishonesty and will result in appropriate disciplinary action."
Limited Use with Prior Approval	"Students may use AI tools only with prior approval from the instructor. If permitted, AI use must be clearly documented, and all content generated by AI must be thoroughly reviewed and revised by the student. Unauthorized AI use will be penalized."
Prohibited for Specific Assignments	"AI tools are not allowed for specific assignments, including [insert specific assignments]. For other tasks, AI may be used for research purposes only, but any AI-generated content must not be directly included in your submissions."
AI for Supplementary Use Only	"Generative AI tools may be used for supplementary purposes, such as brainstorming ideas or outlining topics. However, final submissions must be entirely the student's own work, and no AI-generated text may be included without significant revision."
AI Use Allowed with Strict Attribution	"Students are permitted to use AI tools in this course, but any AI-generated content must be explicitly attributed. Students are responsible for ensuring that the AI's contributions are clearly indicated and that their own original work is the primary focus."
AI Use for Initial Drafts	"AI tools may be utilized to create initial drafts or generate ideas, but students must take full responsibility for revising and refining their work. AI-generated content should serve as a starting point only, and the final submission must reflect the student's own voice and analysis."
AI as a Collaborative Tool	"In this course, students are encouraged to collaborate with AI tools to enhance their learning experience. However, students must critically evaluate AI-generated content and integrate it with their own insights. All AI contributions must be properly cited"
Encouraged AI Use with Ethical Guidelines	"The use of AI tools is encouraged in this course to foster creativity and innovation. Students are expected to follow ethical guidelines when using AI, including proper attribution and ensuring that AI-generated content complements, rather than replaces, their own work."
AI as an Essential Component	"AI tools are considered an essential component of this course. Students are required to use AI in completing assignments, and part of the evaluation will focus on how effectively AI was integrated into their work. Proper citation of AI tools is mandatory."
Complete Embrace of AI	"This course fully embraces the use of AI tools. Students are encouraged to experiment with AI to push the boundaries of creativity and scholarship. AI-generated content can be used freely, provided that the student takes responsibility for the final submission and acknowledges AI contributions."
