

TEXAS WOMAN'S  
UNIVERSITY

# Fiscal Year 2025 Budgets

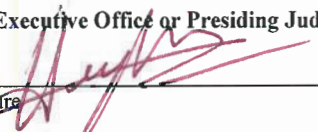

## CERTIFICATE

**Agency Name** Texas Woman's University System (775) and Texas Woman's University (731)

This is to certify that the information contained in the agency operating budget filed with the Legislative Budget Board (LBB) and the Office of the Governor, Budget and Policy Division, is accurate to the best of my knowledge and that the electronic submission to the LBB via the Automated Budget and Evaluation System of Texas (ABEST) and the PDF file submitted via the LBB Document Submission application are identical.

Additionally, should it become likely at any time that unexpended balances will accrue for any account, the LBB and the Office of the Governor will be notified in writing in accordance with House Bill 1, Article IX, Section 7.01, Eighty-eighth Legislature, Regular Session, 2023.

Alex Yarbrow  
Acting Secretary, Board of Regents  
Texas Woman's University System

# Introduction

Texas Woman's University System (“TWU System”) is the first publicly funded woman focused university system in the United States. From its founding in 1901, Texas Woman’s University was built to serve a population of Texans that typically were not able to obtain higher education and serving non-traditional students remains at the heart of the TWU System mission. Texas is a diverse and growing state and the Texas Woman’s University System is focused on providing higher education to women, first-generation students, low-income students, veterans, working mothers, students from the foster care system, and many other underserved non-traditional students; all the while producing some of the most sought after and highly qualified graduates in the fields that Texas needs most.

Texas Woman’s University System is a public doctoral university system offering baccalaureate, master’s, and doctoral degree programs. With its main campus in Denton and two health science centers in Dallas and Houston, TWU serves not only the north central region, but also the entire State of Texas. The T. Boone Pickens Institute of Health Sciences - Dallas Center, located in the Southwestern Medical District, offers academic programs in a variety of health science fields to serve this major area of Texas. The TWU Institute of Health Sciences – Houston Center, located in the Texas Medical Center, provides a rich setting for nursing and health sciences students.

Texas Woman’s University (“TWU”), a component institution of the TWU System, enrolls over 15,500 students across three campuses – Denton, Dallas, and Houston. TWU awards 40% of all Texas allied health doctoral degrees from a 4-year public university, 17% of all critically-needed doctoral degrees in nursing, and 80% of TWU teachers are still teaching after graduation compared to the Texas average of 50% of teachers who leave the profession in five years or less. Well known for its long history in the health care professions, education and scientific research, TWU has added aviation to its science, technology, engineering, and math (STEM) offerings, as part of an ambitious goal to double STEM opportunities by 2028.

Texas Woman’s University is a top performer in Texas and made the U.S. News and World Report “Social Mobility” national list, the Best Master’s Nursing Schools in Texas list, and has been designated “Military Friendly” for 11 consecutive years. Eighty-three percent of TWU graduates are employed or enrolled in Texas within one year of graduation, and TWU is #1 in DFW for graduate earnings vs. cost (Dallas Business Journal).

Texas Woman’s is educating the next generation of innovators and leaders, and inspiring excellence and a pioneering spirit.

## Executive Summary

It is the intent of Texas Woman's University System ("TWU System") and its component university, Texas Woman's University ("TWU"), to utilize resources entrusted to us by our students and the State of Texas in the most impactful and effective manner possible to support student success. This FY2025 Budget book provides an overview of financial planning and budget practices that support TWU strategic priorities and commitments.

This year's TWU budget reflects our continued commitment to:

- Student diversity and accessibility including our commitment to non-traditional students;
- Maximizing affordability and minimizing student debt, coupled with financial literacy education for our students to help them obtain a degree in a financially responsible manner;
- Meeting Texas health care workforce needs; and
- Overall student success.

Investments in this budget that will support our continued commitments to our students, faculty, staff, and institution include:

- Promotion and tenure for qualifying faculty;
- Targeted merit-based raises for high-performing faculty and staff;
- Investment in enrollment growth strategies;
- Investment in deferred maintenance and capital renewal; and
- Investment in the construction of a new Health Sciences Center and support for the programs to be housed therein.

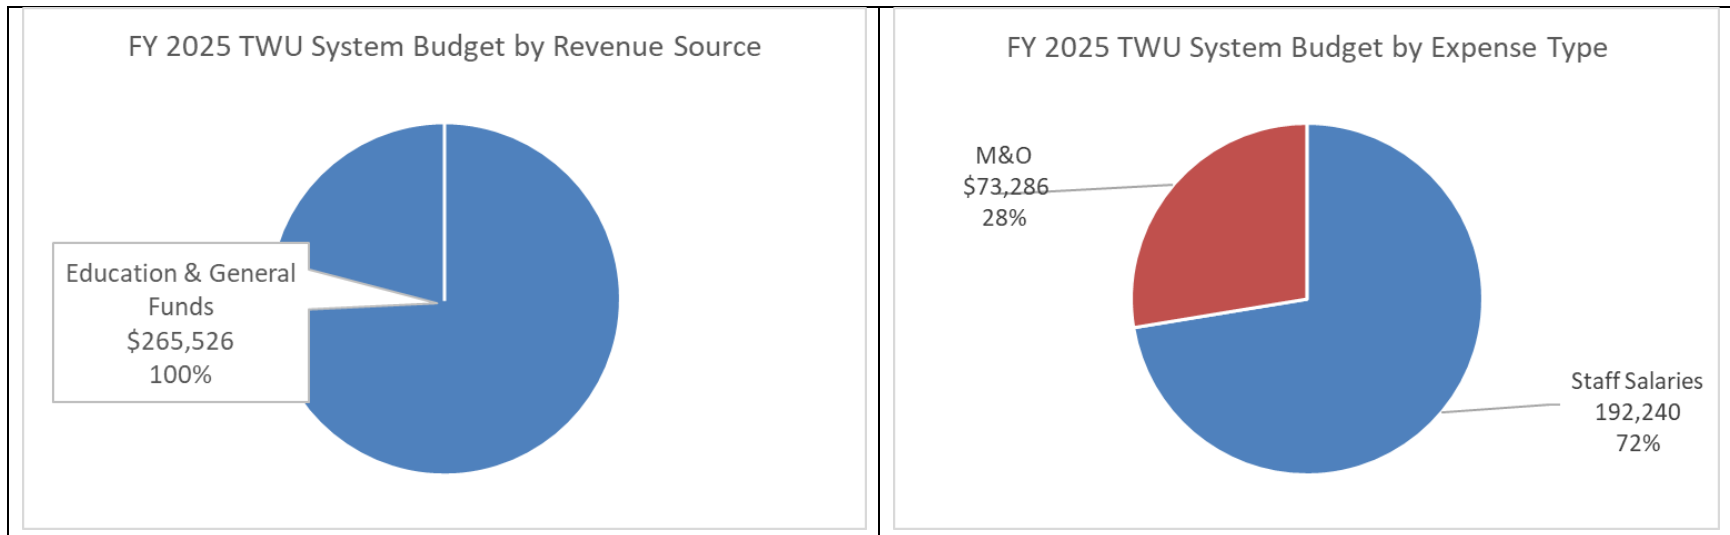

Budget development follows the parameters set forth in our institutional strategic plan, our campus master plan, and policy decisions and planning parameters of the Chancellor and President and the Board of Regents. Net tuition and fees, housing, and dining rates included in this budget are based on rate plans approved by the Board of Regents.

Texas Woman's University System, and its component institution TWU, follows an incremental budget process starting with the prior year Board of Regents approved budget and incorporating changes in funding levels, fixed costs and expenditures, before adding resources for various strategic initiatives.

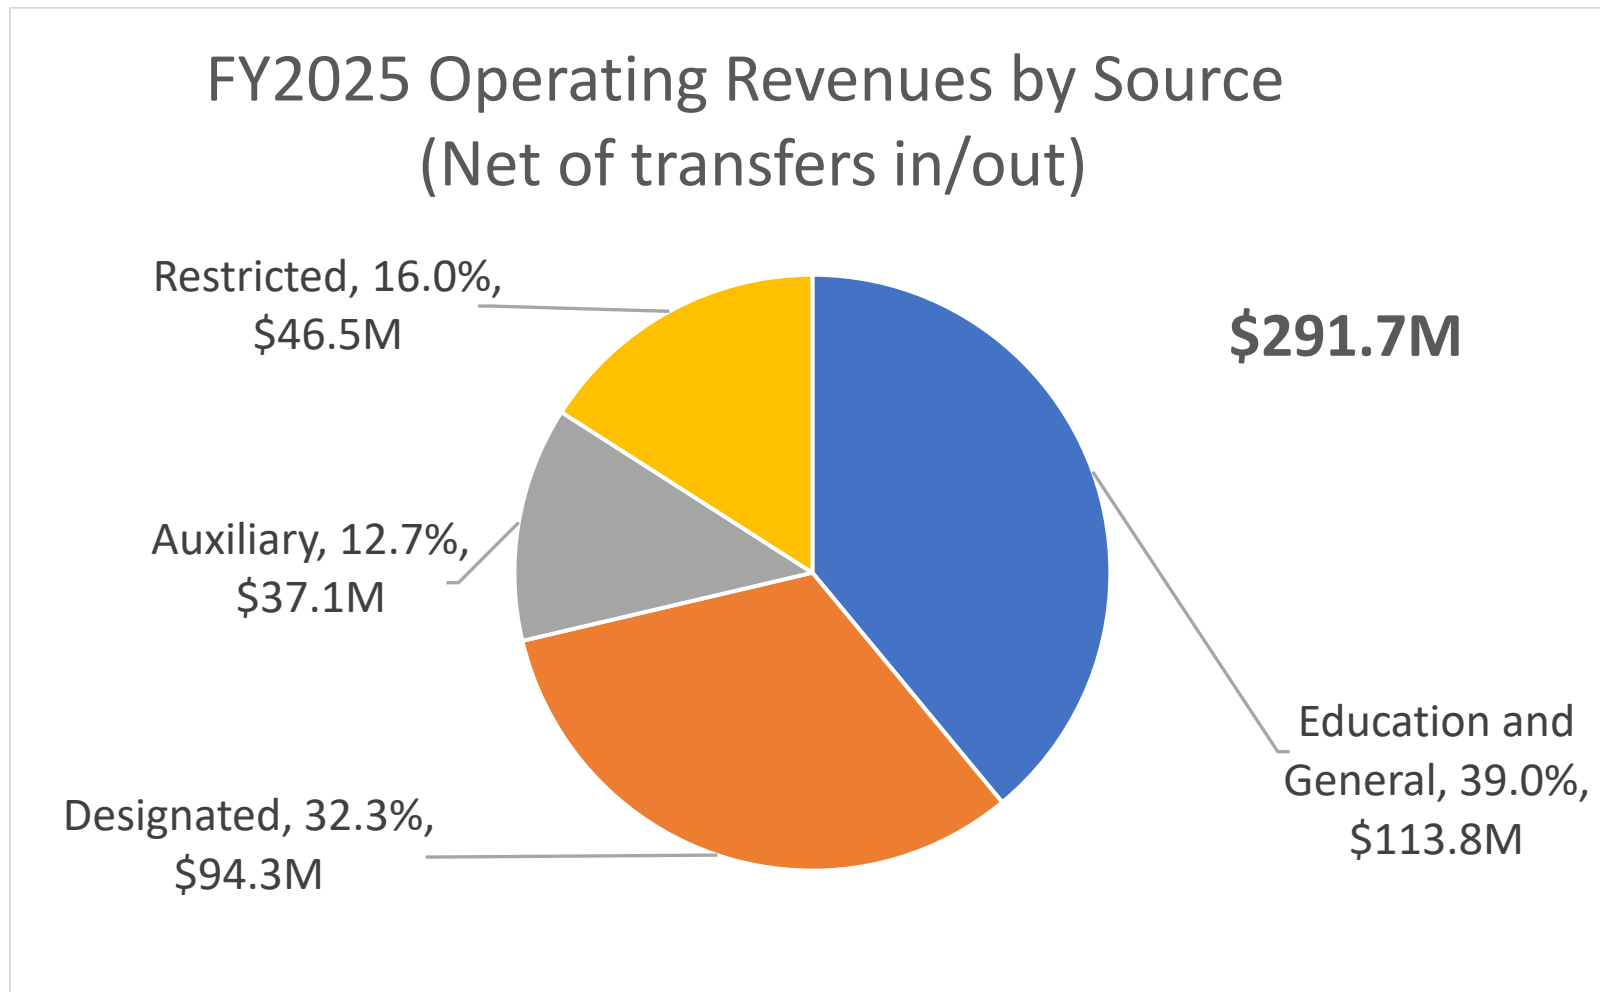

## Texas Woman's University System

As TWU System is still within its formative phase, it is solely funded via state appropriation of \$265.5K. The TWU System is using this funding to centralize operations for the TWU System that are currently handled by Texas Woman's University and to implement the strategic goals of the entire system by elevating TWU Dallas and TWU Houston into accredited and independent institutions. As each of the campuses grow and develop, there will be continued need for additional strategic support and investment.

## Texas Woman's University - Revenues

For FY2025, Texas Woman's University has a total operating budget of \$291.7M. TWU expects a positive increase in current operating revenues overall of 0.2% from the prior year. After strong positive increases in state funding in FY2024, with the passage of the

Affordability Rider in the 88<sup>th</sup> Texas Legislative Session and increase in state appropriations for debt service, TWU continues to benefit from positive growth in state support of 3.0%. Designated funding is anticipated to increase 0.7% given solid enrollments, with auxiliary revenues growing at 10.8% due to strong demand for housing and dining services. Restricted funds will decline by 13.9% given one-time grants not yet confirmed to continue in FY2025 along with conservative budget estimates.

Education and General (E&G) funding totals \$113.8M, or 39.0%, of the operating revenue budget for FY2025. These funds include general revenue formula funding, non-formula and special items support, employee benefits paid by the state, Higher Education Funds (“HEF”), and statutory tuition and fees collected by TWU. The increase in E&G funding of \$3.9M over FY2024 is due mainly to additional funds generated from tuition and fee income given strong demand for graduate programming, especially in Nursing and Health Sciences along with new Higher Education Affordability appropriations that are used to assist in student retention. The implementation of ongoing programs related to the TWU Frontiers program, Nursing Recruitment & Retention, overall retention efforts have been budgeted primarily in this category for FY2025.

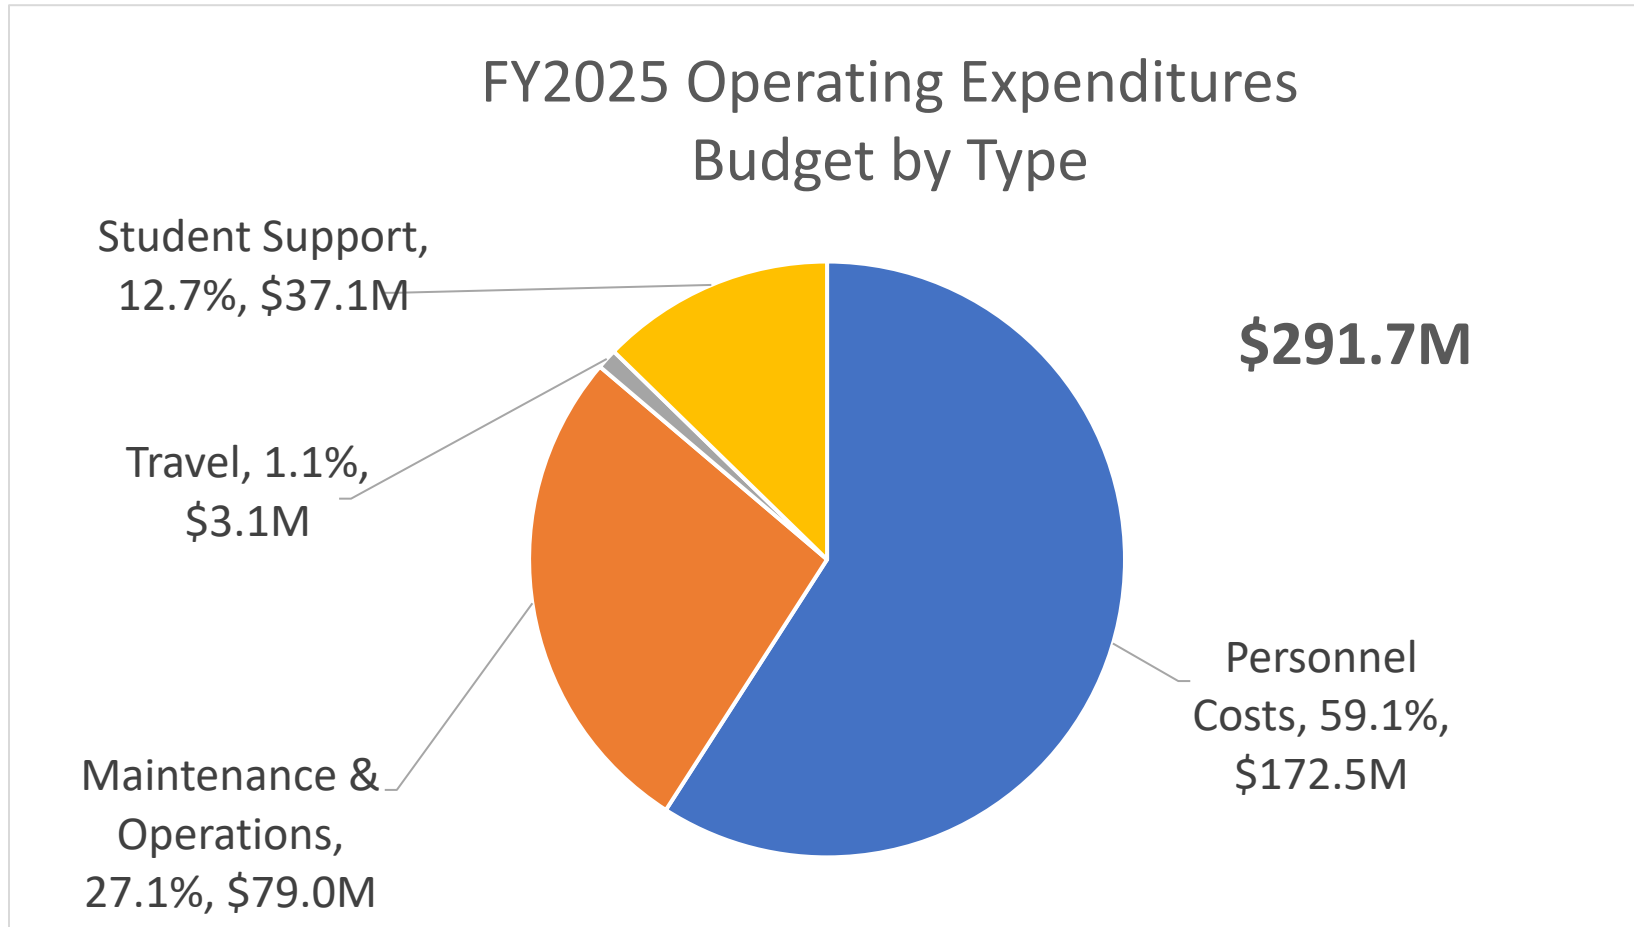

Designated Funds used to support TWU operating activities total \$94.3M, or 32.3%, of the operating revenue budget for FY2025. The designated tuition rate held flat at \$188 per semester credit hour while University Services Fee also held flat at \$66 per credit hour. This fee provides funding to help cover the cost of information technology operations, library services, instructional enhancements, as well as, advising services. The new Doswell School of Aeronautical Sciences, which welcomes its first cohort of students Fall 2024, is expected to bring \$1M of new program fee revenue. With tuition and fee rates held flat, and budgeted enrollment levels to be relatively stable, designated funds are anticipated to increase overall approximately \$700k.

Auxiliary funds total \$37.1M, or 12.7%, of the operating revenue budget for FY2025, and is used to provide services for students, faculty, and staff. These funds generally charge a fee directly related to the cost of the goods or services being provided. The increase of \$5.1M over FY2024 is a result of increases in university housing and residence life revenues, contract services (meal plans), and miscellaneous revenues. Auxiliary Services agreed to absorb \$200,000 in debt service related to the TWU parking facility beginning in FY2023 which continues in FY2025.

Restricted funds, for which use is restricted by the donor/grantor, available for operating purposes totals \$46.5M, or 16.0%, of the operating revenue budget for FY2025. Restricted funds declined \$7.5M over FY2024 give conservative budget estimates for both revenues and expenses in FY2025.

Total state funding (inclusive of HEF) continues to be the predominant funding source for Texas Woman’s University.

## Texas Woman's University - Expenditures

Texas Woman's University has a total operating expenditure budget of \$291.7M. TWU expects a modest increase of 0.7% in current operating expenditures primarily driven by increases in faculty and staff salaries, along with employee benefits, offset by prudent expense management of non-personnel and other controllable expenditures.

Personnel costs continue to be the largest component of operating expenditures at \$172.5M, or 59.1%, of the total FY2025 budget. The FY2025 budget includes an equity and promotion pool of \$800k for faculty, and merit pool of \$200k for staff. Staff members who did not receive a merit increase in FY2024 are eligible to receive an increase (estimated at 3%) in FY2025. The TWU share of retirement contributions increased in FY2024 from 8.0% to 8.25% and will continue at the increased rate.

The second largest component of operating expenditures are maintenance and operational (M&O) costs at \$79.0M, or 27.1%, of the total budget. M&O cost increases include the increasing fixed costs (utilities, insurance, maintenance, licenses, etc.) and costs associated with strategic investments related to enrollment growth, enrollment retention, and student success. Additionally, auxiliary expenses increased by \$5.1M given strong campus housing demands.

The travel portion of operating expenditures for FY2025 totals \$3.1M, or 1.1%, of the total budget. This represents an increase of \$139k, or 4.7%, over FY2024 and supports university business travel. Lastly, student support is funded at \$37.1M, or 12.7%, commensurate with the prior year at \$38.1M, and provides scholarships and other program resources directly benefiting students for their success.

## Overall Expectations

Texas Woman's University System and its component institution, Texas Woman's University, present a balanced budget fully utilizing all state, designated, and restricted funds, with the expectation of a surplus in auxiliaries to be placed in reserve for future maintenance and replacement needs.

## Education and General Funds

Funds comprised of tax receipts in the state treasury (General Revenue) and funds generated locally by Texas Woman's University from students and other sources (Other E&G/General Revenue-Dedicated). Biennially, in the General Appropriations Act (GAA), universities are allocated (appropriated) funds based on legislative decisions and formulas calculated by the Texas Legislative Budget Board. These appropriations include General Revenue funds (e.g., appropriations for personnel costs and HEF appropriations for capital investments) and General Revenue-Dedicated funds (e.g. statutory and Board-authorized tuition, and laboratory fees).

Educational and General (E&G) funds are used to support the University's general educational and institutional operations, including faculty salaries, operating expenses of instructional departments, library operations and acquisitions, general administration, student services, campus security, and physical plant operation, as well as, a limited number of non-formula support items. E&G funds may only be expended for purposes as defined by the respective sources of funds.

**Higher Education Funds (HEF)** - Revenues received from the State of Texas General Revenue Fund for construction and other capital purposes. This constitutional appropriation is provided for acquiring land with or without permanent improvements, constructing and equipping buildings or other permanent improvements, major repair, or rehabilitation of building or other permanent improvements and acquisition of capital equipment, library books, and library materials. Construction, improvements, and capital equipment purchases made from HEF funds can only be used for structures used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities.

## Designated Funds

Designated Operating funds are unrestricted funds that have been designated to support the operating activities of the institution. The sources of Designated Operating funds include revenues from designated and differential tuitions, program fees, and other

student fees. Student fees collected as Designated Operating funds may be statutorily authorized under specific legislation or may be allowable as mandatory or incidental fees under 54.504 or 55.16(c) of the Texas Education Code (TEC).

### **Auxiliary Funds**

Funds used to provide services for students, faculty, and staff which generally charge a fee directly related to the cost of the goods or services being provided (e.g. athletics, residence halls, hospitality and dining services, parking, etc.). No appropriated (E&G funds) can be used to support auxiliary operations.

### **Restricted Funds**

Funds available for current operating purposes, the use of which is restricted by the donor/ grantor to be utilized as stipulated by the funding source (e.g. research grants, scholarships, earnings from endowments, etc.).
