

MULTIDISCIPLINARY STUDIES

TEXAS WOMAN'S UNIVERSITY

Programs Offered:

- Bachelor of Science in Multidisciplinary Studies (BSMDS)
- Bachelor of Applied Arts & Sciences in Professional Studies (BAAS-PS)

Why Choose Our Programs?

- **Customizable Curriculum:** Tailor your degree with concentrations in areas such as Business, Computer Science, Criminal Justice, English, Health Studies, History, Human Development & Family Studies, Kinesiology, Mathematics, Multicultural Women's & Gender Studies, Political Science, Psychology, Sociology, and Visual Arts.
- **Career-Focused Skills:** Gain in-demand skills in leadership, communication, teamwork, and problem-solving.
- **Flexible Learning Options:** Complete courses **100% online, in-person, or hybrid** to fit your schedule.
- **No Additional Requirements:** No extra math, science, or foreign language courses beyond your concentration needs.
- **Transfer-Friendly:** Designed for seamless transfer from community colleges and for students changing majors—maximizes use of previously earned credits.
- **Parallel Pathways:** Great option for pre-nursing and pre-professional students who want a flexible, career-ready degree.

Who Thrives Here?

- FTIC & transfer students wanting a smooth transition to a Bachelor's degree.
- Adult learners balancing work, family, and school.
- Students seeking to combine multiple interests into one degree.
- Career changers or those seeking advancement in their current field.

Student Success Highlights:

- Supportive faculty and advisors dedicated to your academic and career goals.
- Opportunities for internships, research, and community engagement.
- Peer mentorship and professional development programs.
