

TEXAS WOMAN'S UNIVERSITY

College of Nursing

Bachelor of Science in Nursing (BSN) WEEKEND/EVENING PROGRAM – 2nd Bachelor's Degree

The Weekend/Evening Program is a 6-semester program (including summers). Lecture classes are held two evenings per week from 5-9PM. Labs and clinical rotations at a hospital are on Saturday and Sunday from 7AM-3PM. Eight of our didactic courses are 100% online.

This option is for those who are seeking initial licensure as a registered nurse (RN) and who have previously earned a bachelor's degree in another field. Coursework from prior degrees may be applied to the prerequisites, if equivalent in content. Contact a College of Nursing academic advisor to have your coursework evaluated. Academic Program Code: NURS.BSPB *Texas Common Course Numbers (TCCN) noted in italics.*

Lower Division (General Education) Courses

Semester 1	Hours	Semester 2	Hours
D2 d,22 D2,2 00022	3	HIST 1013 (<i>HIST 1301</i>) US History, 1492-1865	3

TWU College of Nursing, BSN in Nursing Prerequisite Courses
Common Community College Transfer Equivalencies

(Revised March 2022)

TWU Prerequisites	Hours	Texas Community College courses that will be accepted for TWU's nursing prerequisites.
Chemistry Lecture & Lab	4	<u>Any</u> college-level chemistry course <i>with corresponding lab</i> . The most common course numbers taken are CHEM 1405 (or 1305 & 1105), CHEM 1406 (or 1306 & 1106), and CHEM 1411 (or 1311 & 1111).
BACT 1001/1003 Microbiology Lab & Lecture	4	BIOL 2420 or 2421 when 4-hour combined classes; BIOL 2120 & 2320 or BIOL 2121 & 2321, when lab/lecture are separate courses.
ZOOL 2011/2013 Human Anatomy & Physiology I Lab & Lecture	4	BIOL 2401; SCIT 1407 when 4-hour combined class; BIOL 2101 & 2301, when lab/lecture are separate (see note #1 below, regarding Austin CC)
ZOOL 2021/2023 Human Anatomy & Physiology II Lab & Lecture	4	BIOL 2402; SCIT 1408 when 4-hour combined class; BIOL 2102 & 2302, when lab/lecture are separate (see note #1 below, regarding Austin CC)
MATH 1703 Elementary Statistics I	3	MATH 1342, 1442, 2342, or 2442
or PSY 2303 Applied Statistics (see note #2 below)	3	PSYC 2317
PSY 1603 Developmental Psychology (Lifespan)	3	PSYC 2314
NFS 2323 Intro to Nutrition	3	BIOL 1322 or HECO 1322, except for Austin CC, which is BIOL 1323
HIST 1013 US History 1492-1865	3	HIST 1301
HIST 1023 US History 1865-Present	3	HIST 1302
POLS 2013 US National Government	3	GOVT 2305 (see note #3 below)
POLS 2023 Texas Government	3	GOVT 2306 (see note #3 below)
PSY 1013 Intro to General Psychology	3	PSYC 2301
ENG 1013 Composition I	3	ENGL 1301
ENG 1023 Composition II	3	ENGL 1302
Language, Philosophy & Culture (core block 40)	3	← These 4 prerequisites can be satisfied by taking coursework that satisfies the <u>same Texas state core curriculum blocks</u> at another Texas state college/university, regardless of course equivalency. Students who transfer in with a completed core curriculum from another state institution do not have to take either of TWU's block <u>90</u> courses. Students who do <u>not</u> transfer in core complete will have to meet TWU's remaining core requirements as nursing program prerequisites. Language, Philosophy & Culture, Creative Arts, and the Additional Math or Wellness need to be completed prior to beginning nursing, but Multicultural Women's Studies can be taken after starting the nursing program, if necessary.
Creative Arts (core block 50)	3	
Additional Math or Wellness (core block 90)	3	
Multicultural Women's Studies (core block 90)	3	

BOLD indicates the prerequisites that absolutely must be completed, have a posted grade, and be transferred to TWU prior to application to the Nursing program. Additionally, before students can apply, they must have a minimum of 46 credit hours completed (1st degree only) and have the remainder of the prerequisite coursework in progress or set to be completed before beginning the nursing program.

1. Austin Community College uses the same numbers, but prior to Fall 2016, they offered Human Anatomy in one course and Human Physiology in another. It is fine if you took these courses, as long as you took both courses prior to Fall 2016. We will not accept just one of their separated courses matched with A&P I or II.

2. Psychology statistics or other non-MATH statistics may be substituted for Math 1703, if student has a completed TX state core curriculum from another institution or meets the requirements for core completion at TWU.

3. Prior to 2013, many community colleges offered GOVT 2301 & 2302. instead of 2305 & 2306 GOVT 2301 & 2302 are acceptable, if brought in as a set. Alternately, GOVT 2301 alone can be combined with either 2305 or 2306. Those who are only transferring in GOVT 2302, however, will need to take both governments at TWU in order to fulfill state requirements.

TEXAS WOMAN'S UNIVERSITY

DENTON | DALLAS | HOUSTON

TO: All Nursing Majors
RE: Requirements for Clinical Placement and Subsequent Registered Nursing Licensure

Clinical Placement

All potential students seeking entrance to the TWU College of Nursing Upper Division program should be aware of requirements necessary for clinical placement during the nursing curriculum and subsequent requirements for licensure. Nursing students gain expertise in nursing care by attending required clinical experiences at hospitals and other clinical agencies in community. By providing direct patient care throughout the nursing curriculum, the student develops necessary knowledge, skills, and critical thinking abilities in order to competently perform as a registered nurse applicant upon graduation. When students are placed in clinical agencies to complete necessary course work each semester, the students must comply with strict entrance criteria, to include, but not limited to, criminal background screening and drug testing, imposed by that particular clinical agency. TWU College of Nursing must ensure and verify that each student placed in a clinical facility meets those requirements. Currently, students **MUST** meet very specific identification requirements (valid ID) in order to have drug testing and criminal background screening to attend clinical experiences and successfully pass clinical courses in the curriculum. The following list contains the only acceptable identification necessary for the drug testing and criminal background screening. **One of the following will be required of all students who have been admitted to upper division nursing before a clinical placement can be offered. You must present one of these forms of identification on the day designated as nursing orientation.**

- Unexpired US/Texas Driver's License with photo
- Unexpired United States passport with photo
- Unexpired Foreign passport with Student Visa and photo
- United States State ID [Texas ID] issued by the Department of Motor Vehicles with photo
- United States Citizenship Certificate or Certificate of Naturalization with identifiable photo
- Unexpired United States military ID card for active duty, reserve, or retired personnel with photo

Background Checks for Texas Board of Nursing

Per Senate Bill (SB) 1058, criminal background checks are **mandatory** for all students accepted for enrollment in a nursing education program. These checks, initiated by the Texas Board of Nursing, are

intended to identify individuals who, due to criminal convictions, would be ineligible to sit for the NCLEX exam upon completion of an approved nursing education program. **Those who believe they might have eligibility issues to be found through a criminal background check that could prevent them from taking the licensure examination upon completion of a nursing program are required to complete a Declaratory Order application.** The Declaratory Order process permits the Board of Nursing to make decisions regarding an applicant's eligibility for licensure prior to entering or completing a nursing program. **This process must be fulfilled before a clinical placement can be granted in any clinical nursing course.**

The Declaratory Order application can be found on the Texas Board of Nursing website (below):

https://www.bon.texas.gov/forms_declaratory_order.asp

Testing Center Requirements for Licensure Testing (for graduates seeking RN licensure)

Future nursing graduates should also know that PSI (the testing company assigned to provide NCLEX-RN examinations required for licensure) requires a valid ID containing an identifiable photo and signature. For more information on requirements for testing for licensure, go to:

<https://www.ncsbn.org/cps/rde/xchg/ncsbn/hs.xsl/1221.htm>

SAMPLE Weekly Schedule for a Junior 1 Nursing Student - Traditional Program - at TWU

	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
6:00 AM		Peer Tutoring for Pathophysiology, 6-8a	Peer Tutoring for Assessment, 6-8a				
7:00 AM							
8:00 AM						Use this time to STUDY!	Use this time to STUDY!
9:00 AM		Pharmacology Lecture, 9a-12p	Pathophysiology Lecture, 8:30a-12:30p	Assessment Lab, 8a-12p			
10:00 AM							
11:00 AM							
12:00 PM	Use this time to STUDY!	Peer Tutoring for Pharmacology, 12-2p					
1:00 PM			Assessment Lecture, 2-4p	Concepts Lecture, 1-4p	Use this time to STUDY!		
2:00 PM							
3:00 PM							
4:00 PM							
5:00 PM			Peer Tutoring for Concepts, 4:30-6:30p				
6:00 PM					Visit clinical hospital to receive info for clinical the next day.		
7:00 PM							

This schedule is based on a student that has not completed Pathophysiology before their first semester of nursing school. This student has a Wednesday morning Assessment Lab and a Thursday clinical. Clinical and Assessment labs will vary for each group. Twenty-five (25) hours of suggested weekly study time is also factored in.

Peer Tutoring is not mandatory but is highly suggested and days and times are subject to change each semester. This was given to you to provide you an idea of what your schedule will be like during your 1st semester of Nursing school at TWU.
