

TWU RESEARCH & SPONSORED PROGRAMS PUBLICATION FUND

2024-2025

Texas Woman's University makes available, through the Office of Research & Sponsored Programs, funds to support publication costs. These funds are primarily intended to allow researchers to pay for expenses associated with publication. All full-time tenured faculty, research faculty, and tenure-track faculty at TWU are eligible to apply as the applicant. The applicant must be the **primary/lead** author. Priority is given to publications on the Directory of Open Access Journals (DOAJ) list or published as a hybrid-open access journal, and to researchers seeking external funding. Only one award per publication will be funded regardless of the number of authors and the maximum funded per publication is \$2,000. This program is not intended for student publications; students can apply for funding through the Center for Student Research.
