TWU Policy Benchmarking

Policy Benchmarking Overview

"Policy benchmarking" is the process of comparing TWU's policies with similar policies in other public higher education systems/universities in Texas. Benchmarking with peer institutions ensures that policy approaches are relatively consistent across the state and legally sound. Benchmarking helps identify potential gaps in TWU policies.

Benchmarking does not mean that we must copy verbatim the content of other institutions' policies—rather, we use other policies as a guide and adapt them to fit the unique culture and circumstances of TWU.

All newly written policies or major revisions to existing policies **must** be benchmarked with at least two to three similar policies from peer institutions in Texas. Failure to provide benchmarking details may delay your policy creation/revisions.

Below are links to the public higher education systems and universities in Texas. Please note that institutions may organize their policies differently than TWU.

TWU's policies are available on the [University Policy website](#). TWU's policies are divided between [Regent Policies](#) and [University Regulations and Procedures (URPs)](#). Currently, URPs apply to TWU Denton (flagship), TWU Dallas, and TWU Houston. In the future, TWU Dallas and TWU Houston may develop unique policies governing those universities.

For questions about benchmarking, please contact Tucker Maberry, Secretary to the Board of Regents, at tmaberry@twu.edu or (940) 898-2936.
