
Our Company

Follett Corporation was founded in 1873 when Charles M. Barnes opened a used book store in his Wheaton, Illinois home. We're now more than 10,000 talented and dedicated associates who strive day in and day out to simplify the delivery of education for our customers everywhere by anticipating their needs and then delivering solutions that exceed our customer's expectations. We take pride in the fact that for more than 135 years, we have been helping to improve people's lives by supporting a lifetime of learning and education.

From a community college to a state university system, the heartland to the inner city, the East Coast to the West, across the United States and Canada, the needs and requirements of higher learning institutions are as unique as the students they teach. We are higher education's leading campus retailer and largest wholesaler, providing custom solutions for both local and online campus store operations. Anchored by an assortment of products and services that drive access and affordability - including the largest selection of used textbooks, a robust Rent-A-Text program and our digital textbook platform CafeScribe - Follett Higher Education Group continues to see growth across our channels, evolving our bookstores of today to the campus stores of tomorrow.
