PROGRAM NOTES:

AAS in Radiologic Technology
BAAS in Health Sciences
Transfer Guided Pathway
Effective for the 2024-2025 Catalog

GC: Only completed applications are reviewed by the Radiologic Technology Faculty – it is the applicant's responsibility to ensure their application is complete.

The number of students admitted to the Radiology program is limited by classroom and clinical space and by qualified faculty availability. Therefore, a selection procedure is used to identify candidates who are the most academically prepared.

TWU: Students are required to declare an emphasis area for the BAAS, this will determine which major courses are needed. Must see an advisor to declare program track and plan courses.

- **This is not an official degree plan.** Consult an academic advisor or transfer center for academic planning; degree plans and pathways are subject to change in later catalogs.
- Developmental and/or pre-requisite coursework may be required.
- *Students may take an optional course to meet this core requirement. These courses may be taken at their community college. Contact an Academic advisor at your institution.
- Subject to course availability and department approval. Consult with a TWU academic advisor for academic planning.
- (###) Texas Common Core Curriculum Code under the [Texas Higher Education Coordinating Board](#).
